System features and performance

Automate Large Volume Solid-Phase Extractions

The Dionex AutoTrace 280 instrument is an automated solid-phase extraction (SPE) system for use with large samples (20 mL–20 L) for the isolation of trace organics in water or aqueous matrices. The compounds of interest are trapped on SPE adsorbents (cartridge or disk format) then eluted with strong solvents to generate an extract ready for analysis.

The Dionex AutoTrace 280™ instrument saves time, solvent, and labor ensuring high reproducibility and productivity for analytical laboratories. The instrument can process up to 6 samples in 2–3 hours with only 15 minutes of operator involvement. The Dionex AutoTrace 280 instrument uses powerful pumps (no check valves) and proven constant-flow technology to efficiently process even the most difficult samples. With Dionex AutoTrace and Thermo Scientific Dionex Accelerated Solvent Extraction (ASE) systems, laboratories can effectively automate the solvent-extraction process for liquid and solid matrices.

The AutoTrace 280 Instrument Provides Reliability and Precision

With the Dionex AutoTrace 280 instrument you can:

- Automate SPE steps
- Provide superior analytical precision by automation of the SPE process
- Use positive pressure constant flow for improved analytical precision

Features	Benefits/Values
Automated sample loading of liquids onto SPE cartridges	Allows unattended operation
Automated eluting of SPE cartridges with organic solvent	Allows unattended operation
Closed systems with fan to vent solvent vapors	Conserves valuable hood space since a fume hood is not required
SPE technology for liquid-liquid extraction	Reduces solvent usage and elimination of glassware for reduced operational cost
Positive pressure loading and elution of samples and solvents	Provides constant flow of liquids through SPE cartridges for improved analytical precision

Dionex AutoTrace Offers Value

Dionex AutoTrace instruments offer many advantages for sample preparation over traditional techniques including:

- Solid-phase extraction technology to save time, solvent, and labor
- Decrease in analytical costs through savings of labor and solvents
- Increase in productivity or sample throughput from unattended operation
- Flexibility in operation: cartridges or 47 mm disks

Applications and Systems Performance

Current analytical methods that may require SPE preparation include GC, GC-MS, LC, and LC-MS, and cover the following sample matrices:

- Pesticides (OCPs, OPPs, diquats, and urea ionic pesticides)
- Pollutants (phenols, PCBs, nitrosamines, and dioxins)
- Personal care products (pharmaceuticals, steroids, and endocrine disruptors)
- Total petroleum hydrocarbons (DRO)
- Explosive residues
- Beverages and flavor components

Performance

Pesticide Recovery Study N=6	Thermo Scientific Dionex AutoTrace SPE		Vacuum Manifold SPE	
	Recovery %	%RSD	Recovery %	%RSD
Atrazine	88	1.8	54	12.2
Propazine	91	1.5	80	7.3
Alachlor	99	3.4	96	4.1
Metachlor	99	4.3	96	2.9

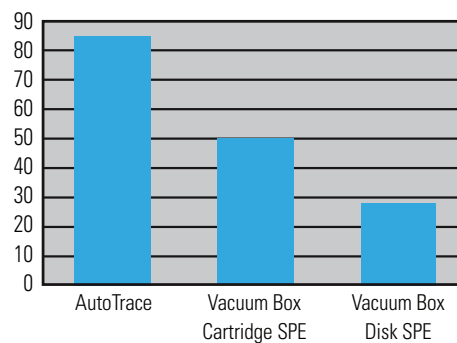

Dionex AutoTrace 280

The Dionex AutoTrace instrument is suitable for a wide variety of matrices such as:

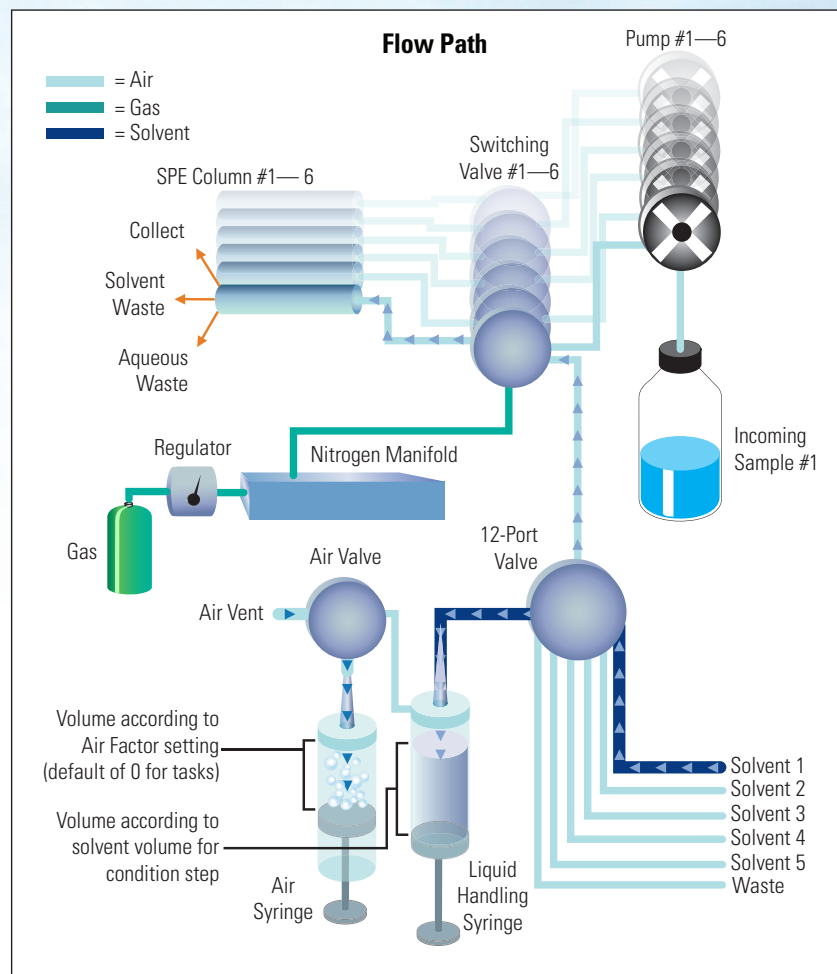

- Drinking water
- Ground or surface water
- Wastewater
- Beverages

Automation provides lower cost of analysis by reducing the amount of time required for extraction. More than half of the sample preparation cost for a typical vacuum manifold extraction is from operator labor. The Dionex AutoTrace 280 instrument provides unattended operation, significantly reducing the cost of analysis.

Percent savings when compared to traditional liquid-liquid techniques such as separatory funnel

The Dionex AutoTrace 280 instrument automates the SPE process. First, the sample cartridges or disks are conditioned with solvent or buffer. Next, the liquid or water samples are pumped from the sample container through the SPE cartridges or disks. As the sample passes through the SPE material, analytes of interest are adsorbed and the liquid goes to aqueous waste. Then, the SPE material is rinsed to remove possible interferences. Finally, the analytes of interest are eluted from the SPE material with a strong solvent and collected.

Dionex AutoTrace 280

Key Specifications

Gas Regulator and Gas Gauge Range:

Output: 0–30 psi (0–1.4 bar)

Input: 100 psi (6.9 bar) maximum

Net Weight

95 lbs. (43.09 kg)

Dimensions (h × w × d)

23 × 25 × 27 in (57 × 63.5 × 69 cm)

Sample Rack: 8 × 16.5 × 13 in

Operating System Software

24 methods stored in the AutoTrace software

Unlimited number of methods stored in PC

Electrical

Voltage: 100, 120, 220, or 240 V ± 10%

Frequency: 47–63 Hz

Power: 150 Volt AC

Liquid Management

Air Syringe: One 10 mL air syringe

LH Syringe: One 10 mL liquid

handling syringe

12-port Valve: Rotary, sliding Rulon® seal

Valves: 3-way, Teflon®

Nozzles: Stainless steel

Sample Inlet: TFE tubing, 1/16" ID,

6 total provided

Sample Pumps

Displacement: Positive

Accuracy: ± 2.5%

Tube Fitting: Kynar®

Piston and Liner: Ceramic

Non Use: Acetic acid, acetone

SPE Configurations

1 mL Syringe: Compatible cartridges

3 mL Syringe: Compatible cartridges

6 mL Syringe: Compatible cartridges

Disk Version: 47 mm SPE disk

SPE Parameters

Flow Rate	Range
Cond Flow	0.6–40.0 mL/min
Load Flow	1.0–30.0 mL/min (Cartridge version) 2.0–60.0 mL/min (Disk version)
Rinse Flow	0.6–40.0 mL/min
Elute Flow	0.6–40.0 mL/min
Cond Air Push	0.6–40.0 mL/min
Rinse Air Push	0.6–40.0 mL/min
Elute Air Push	0.6–40.0 mL/min
Push Delay	0–999 seconds

Ordering Information

Ordering Information

To order, use the following part numbers and contact your local Dionex office or distributor nearest you. In the U.S., call (800) 346-6390. In other regions, refer to the phone numbers listed on the last page of this brochure. Please visit www.dionex.com to learn about our latest offering of cartridges and disks.

Description	P/N
Dionex AutoTrace 280 Automated Large Volume SPE for 47 MM Disks	DX071386
Dionex AutoTrace 280 Automated Large Volume SPE for 6 mL Cartridges	DX071385
Dionex AutoTrace 280 Automated Large Volume SPE for 3 mL Cartridges	DX072605
Dionex AutoTrace 280 Automated Large Volume SPE for 1 mL Cartridges	DX072604
Dionex AutoTrace 280 Automated Large Volume SPE for 6 mL Glass Cartridges	DX072606

We offer a wide array of products and tools that improve the sample preparation process through automated sample handling, increased sample throughput, and decreased preparation cost. To learn more about our latest offering in cartridges and disks, visit www.dionex.com.

Our Customer Support Centers are located in the United States, Europe, and Asia. These state-of-the-art laboratories are equipped with the full line of Dionex LC instrumentation and software capabilities. Support Centers provide accessible locations for advanced training and enhanced application development capabilities. Users can attend these laboratories to learn new skills in addressing challenging applications, receive training and support, and discover new, innovative HPLC and IC solutions.

Our goal is to provide you with solutions to your chromatographic challenges rather than just selling you an instrument. You get a complete solution and a partner committed to your success.

To meet that goal, we offer a complete line of training, service, and consulting products, installation and warranty service, and comprehensive support programs.

Quality Products from a Global Leader in Separation Science

Thermo Fisher Scientific provides an extensive array of innovative, high-quality instruments, software, consumables, and associated products that solve problems for laboratories. All Dionex products are designed, developed, tested, and manufactured in accordance with life cycle processes modeled after ISO 9001.

If You Need Help

Thermo Fisher Scientific offers a range of hardware and software training courses to help you get the most from your system. Whether you need basic training for new operators or advanced training to further the skills of experienced operators, we have the training courses to meet your needs. Courses are held regularly at Dionex facilities, and can also be held at your facility; including custom training. To protect your investment, we offer extended warranties and software subscriptions that keep your system up to date.
